

Allied Health Science Courses

A Student's Guide to 9 Career-Ready Undergraduate Programs After 10+2 (PCB)

Eligibility

Curriculum

Skills

Careers

Work Settings

Cardiac Care • Radiology • Perfusion • MLT • Aesthetic Science • Anaesthesia • Neurophysiology • Physiotherapy • Nursing

Nine Paths in Allied Health Science

Each program blends classroom study with hands-on clinical training

Cardiac Care Technology

4 yrs

Radiology & Imaging

3-4 yrs

Perfusion Technology

4 yrs

Medical Lab Technology

3-4 yrs

Aesthetic Science

3 yrs

Anaesthesia Technology

4 yrs

**Neurophysiology
Technology**

3-4 yrs

Physiotherapy (BPT)

4.5 yrs

B.Sc. Nursing

4 yrs

Cardiac Care Technology (CCT)

B.Sc. Cardiac Care / Cardiovascular Technology

4 years
(3 yrs + 1 yr internship)

10+2 PCB, ~45-50% marks

What You'll Study

- ✓ Cardiac Anatomy & Physiology
- ✓ Electrocardiography (ECG)
- ✓ Echocardiography (2D Echo)
- ✓ TMT & Holter Monitoring
- ✓ Cardiac Catheterization (Cath Lab)
- ✓ ICU & CCU Patient Monitoring

Career Opportunities

- ✓ Cardiac Care Technologist
- ✓ Cath Lab Technologist
- ✓ ECG / Echo Technician
- ✓ ICU-CCU Cardiac Technologist
- ✓ Clinical Application Specialist

Where You'll Work: Cardiac hospitals, government & private hospitals, cath labs, medical device companies

Radiology & Imaging Technology

B.Sc. Radiology / BMRIT

3-4 years
(incl. internship)

10+2 PCB (some accept
PCM), 45-50%

What You'll Study

- ✓ Radiographic Physics
- ✓ Radiation Safety
- ✓ X-Ray Technology
- ✓ CT Scan & MRI
- ✓ Ultrasound Fundamentals
- ✓ Mammography & Fluoroscopy

Career Opportunities

- ✓ Radiology Technologist
- ✓ CT / MRI Technologist
- ✓ X-Ray Technician
- ✓ PACS Administrator
- ✓ Application Specialist

Where You'll Work: Diagnostic & trauma centers, cancer hospitals, imaging companies (Siemens, GE, Philips)

Perfusion Technology

B.Sc. Perfusion Technology

4 years
(3 yrs + 1 yr internship)

10+2 PCB, ~45-50% marks

What You'll Study

- ✓ Cardiovascular Surgery
- ✓ Extracorporeal Circulation
- ✓ Heart-Lung Machine Operation
- ✓ ECMO Support
- ✓ ICU & Critical Care
- ✓ Blood Transfusion

Career Opportunities

- ✓ Perfusion Technologist
- ✓ ECMO Specialist
- ✓ Cardiac Surgery Technologist
- ✓ Cardiac ICU Perfusionist

Where You'll Work: Cardiac specialty hospitals, heart institutes, transplant centers, research institutions

Medical Laboratory Technology

B.Sc. MLT

3-4 years
(often incl. internship)

10+2 PCB (PCM also
accepted), 45-50%

What You'll Study

- ✓ Biochemistry & Hematology
- ✓ Microbiology & Immunology
- ✓ Histopathology & Cytology
- ✓ Blood Banking & Transfusion
- ✓ Molecular Diagnostics
- ✓ Laboratory Quality Control

Career Opportunities

- ✓ Medical Lab Technologist
- ✓ Blood Bank Technologist
- ✓ Histopathology Technologist
- ✓ Quality Control Officer

Where You'll Work: Hospitals, diagnostic labs, blood banks, pharma & biotech companies

Aesthetic Science & Cosmetology

B.Sc. Aesthetic Science / Clinical Cosmetology

3 years

10+2 any stream (PCB preferred by some)

What You'll Study

- ✓ Skin Anatomy & Dermatology Basics
- ✓ Cosmetic & Chemistry Science
- ✓ Laser Technology (theory)
- ✓ Chemical Peels
- ✓ Skin Rejuvenation
- ✓ Salon & Clinic Management

Career Opportunities

- ✓ Aesthetic Therapist
- ✓ Clinical Cosmetologist
- ✓ Laser Technician
- ✓ Medical Spa Executive

Where You'll Work: Dermatology & cosmetic clinics, medical spas, wellness chains, skincare companies

Anaesthesia Technology

B.Sc. Anaesthesia Technology (or combined AOTT)

~4 years
(3 yrs + 1 yr internship,
varies)

10+2 PCB, 45-60% marks

What You'll Study

- ✓ Anaesthesia Equipment
- ✓ Anaesthetic Drugs
- ✓ Airway Management
- ✓ Patient Monitoring
- ✓ Operation Theatre Techniques
- ✓ BLS & ACLS

Career Opportunities

- ✓ Anaesthesia Technologist
- ✓ Operation Theatre Technologist
- ✓ ICU / Critical Care Technician
- ✓ Emergency Care Technician

Where You'll Work: Multi-specialty & trauma hospitals, cardiac & cancer hospitals, day-care surgical centers

Neurophysiology Technology

B.Sc. Neurophysiology / Neuro Electro Physiology

3-4 years
(often incl. internship)

10+2 PCB, 50-60% marks

What You'll Study

- ✓ Neuroanatomy & Neurophysiology
- ✓ EEG (Electroencephalography)
- ✓ EMG (Electromyography)
- ✓ Nerve Conduction Studies
- ✓ Evoked Potential Studies
- ✓ Sleep Studies (Polysomnography)

Career Opportunities

- ✓ EEG / EMG Technologist
- ✓ Neurodiagnostic Technologist
- ✓ Sleep Lab Technologist
- ✓ IONM Technologist

Where You'll Work: Neurology & neurosurgery departments, sleep laboratories, research institutes

Physiotherapy (BPT)

Bachelor of Physiotherapy

4.5 years
(4 yrs + 6 mo internship)

10+2 PCB, 45-50%, merit /
entrance / NEET

What You'll Study

- ✓ Biomechanics
- ✓ Exercise & Electrotherapy
- ✓ Orthopaedic Physiotherapy
- ✓ Neurological Physiotherapy
- ✓ Sports Physiotherapy
- ✓ Community Rehabilitation

Career Opportunities

- ✓ Physiotherapist
- ✓ Sports / Orthopaedic Physiotherapist
- ✓ Neurological Physiotherapist
- ✓ Rehabilitation Specialist

Where You'll Work: Hospitals, rehab centers, sports academies, orthopaedic & neurology clinics, private practice

B.Sc. Nursing

Bachelor of Science in Nursing

4 years

10+2 PCB + English, ~45-50%, entrance / NEET

What You'll Study

- ✓ Medical-Surgical Nursing
- ✓ Pediatric & OBG Nursing
- ✓ Mental Health Nursing
- ✓ Community Health Nursing
- ✓ Critical Care Nursing
- ✓ Nursing Research

Career Opportunities

- ✓ Registered Nurse (RN)
- ✓ ICU / OT / Emergency Nurse
- ✓ Pediatric / Oncology / Cardiac Nurse
- ✓ Nursing Educator

Where You'll Work: Hospitals, medical colleges, defense hospitals, NGOs, home healthcare services

Choosing the Right Path

- All programs need 10+2 with Physics, Chemistry & Biology (PCB) — check each college's exact cut-off.
- Duration ranges from 3 to 4.5 years, and almost every course ends with a hands-on clinical internship.
- Match your interest — hearts, imaging, the brain, the lab, surgery support, or patient care — to the course.
- Every path leads to real hospital roles, and many open doors to further specialization or higher studies.

Thank You
